

PROJECT NAME:
AUTUMN LEAVES

ZHAOLIN CAI | MOME 130 | PROFESSOR: AUSTIN SHAW

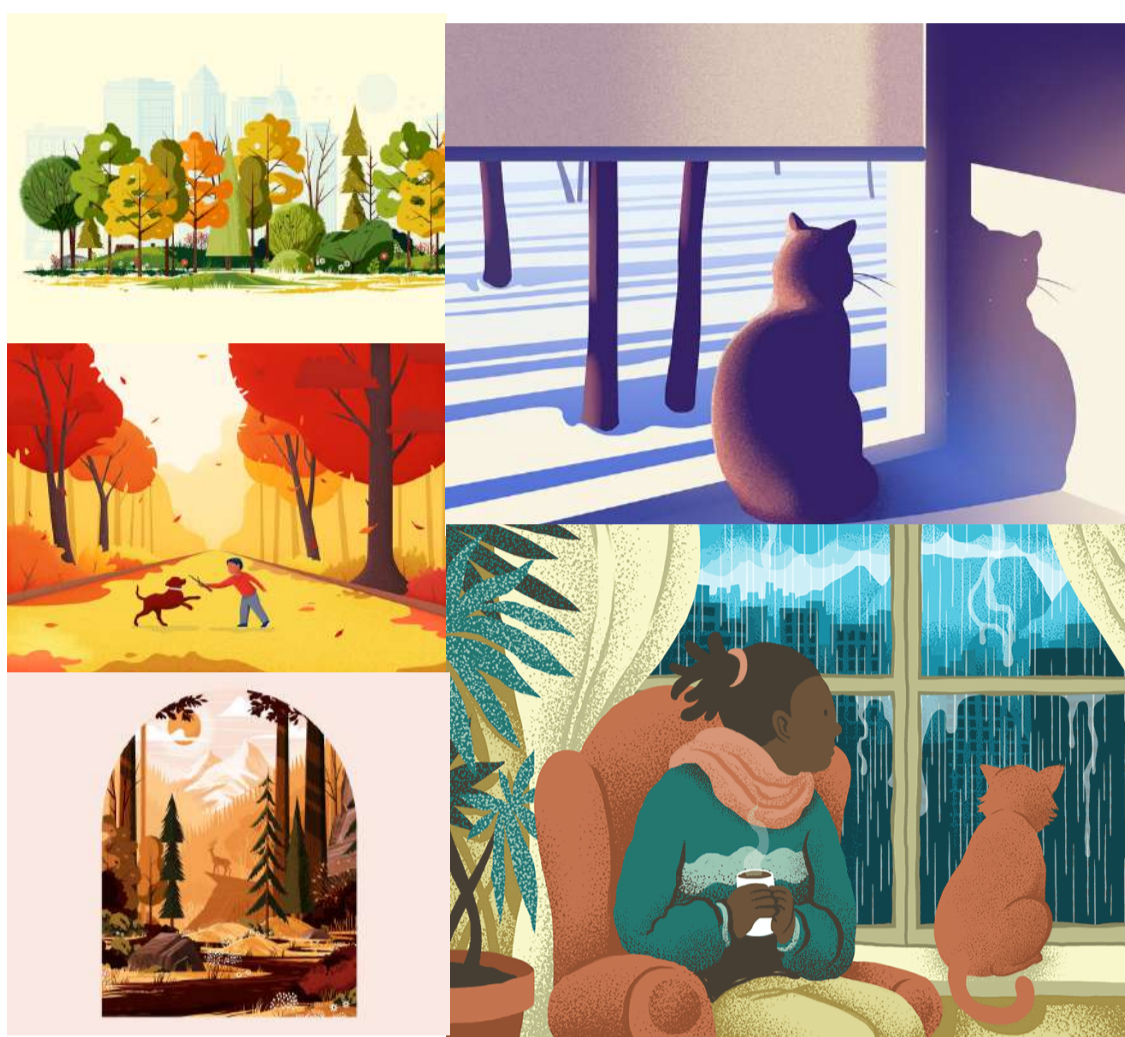

Project Description / Creative Needs:

Now that you have a basic understanding of Motion Techniques, it is time to put your skills to the test by creating a more robust motion media project. The focus of this project is to create a short narrative using what we have learned in class thus far. You need to incorporate sound in some fashion for this project, either with voice over, music, or a combination of the two.
Concept for Project: Open Brief (It's your choice)

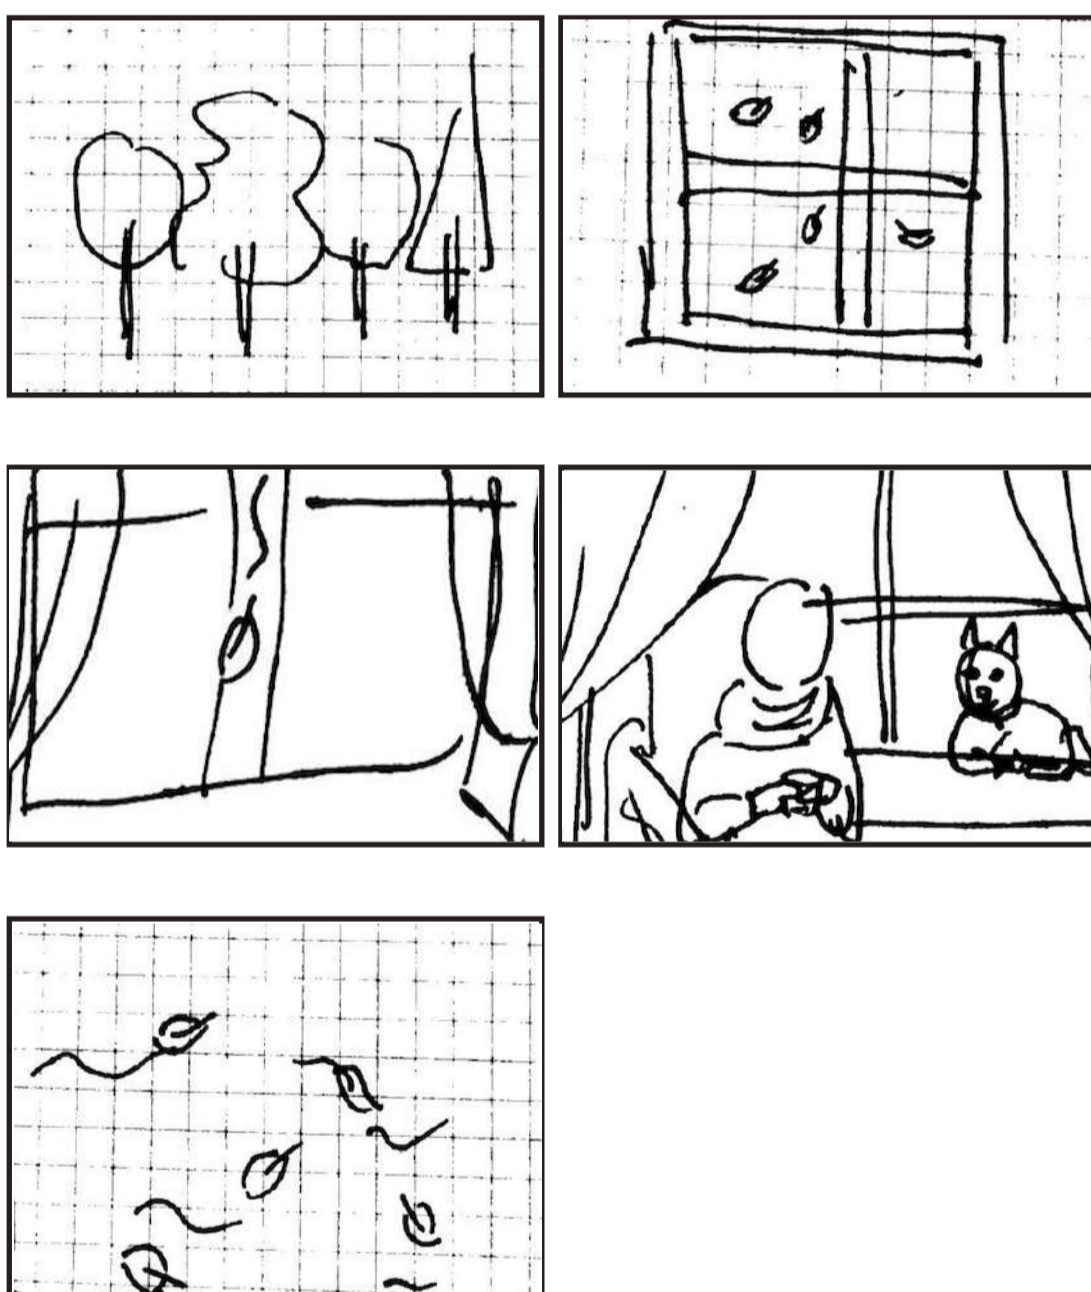

Proposal:

My inspiration comes from one of my favorite music: "Autumn Leaves" by Eric. It is classic rock music. Although it belongs to the rock type, it is different from the noisy rock music. I think this is a romantic and sad song. The main lyrics describe the pain and nostalgia of the lost lover. Also, autumn is my favorite season. Another meaning of choosing this song is that when I hear this song, it made me remind of my died kitten. The significance of the creation is to memory my cat. The main elements of the short video are autumn trees, fallen leaves, and a cat.
